Hypothecris is a planet. That planet is located two hundred light-years away from our earth. There used to be a race on this planet like humans who are very advanced in technology. This race was called hypothecrisians. This nation was so advanced in 1800 that it was able to move space at lightning speed.

Hypothecris The more developed the planet, the more inhuman it is. But it was not like that before, there was no nation as peaceful as this nation before. Before, everyone lived here in harmony.

At that time the name of the king was Leo Siniya Hypothecris the first of his name. That king did justice to everyone and helped the poor in many ways. Leo had two wives. The first wife died while giving birth to her first child. Leo's first son was named albedo Leo hypothecris the first of his name. Leo married a second time to look after Albedo. Leo's second wife's name was Monalisa hypothecris and Leo's first wife's name was ema hypothecris. Emma was a good and kind queen but Monalisa was a cruel queen. Who had all the wealth? He used to oppress the poor in various ways. Even though Leo interrupted Monalisa many times, Monalisa would continue to do these bad things without listening to Leo. Even albedo also did not foster as Monalisa fix it Albedo was tortured in various ways. But Albedo was a complete reflection of Leo. So he did a good job. But Mona Lisa's son DRACO LEO Hypothecris (the first of his name) was the exact opposite of Leo. He misused his position as a prince. He treated the poor as if they were human beings. He used to treat girls very badly.

The kings of Hypothecris have a ring called the ring of cosmic. There is a lot of natural energy in this ring. Such as superhuman strength, super speed, instant heal, slow aging. Every king gives this ring to the next king at the end of his reign. Over time, Leo's reign dwindled. And that was Leo's biggest fear. Because Albedo deserves to be king but

Mona Lisa will not let him be king. And Draco does not deserve to be king. If he has the power to ring, he will have the power to destroy the whole planet.
